OBJECTIVE

Passionate Full Stack Developer with around 2 years of hands-on experience in building user-focused web applications and services. With strong proficiency in backend frameworks like CodeIgniter and Laravel 10, I specialize in developing robust, scalable, and dynamic solutions. Skilled in both frontend and backend technologies.

CAREER SUMMARY

I started my journey with a **2-month internship in Core PHP and MySQL**, where I gained foundational knowledge in back-end development. This experience kick-started my career, leading to **around 2 years of professional work as a Full Stack Developer**. I have worked extensively with a diverse technology stack that **includes React.js, Laravel 10, CodeIgniter, Flask, HTML, CSS, and jQuery**. Additionally, I possess hands-on expertise in **managing server environments using Plesk Control Panel**. My focus has been on creating dynamic, responsive, and user-friendly web applications.

WORK EXPERIENCE

Noitavonne , Full Stack Developer

August 2023 - Present

- Design and develop responsive user interfaces with **HTML, CSS, Bootstrap, JavaScript, jQuery, Laravel 10, and React.js**.
- Conducted in-depth user research for user-centric design solutions. Implemented pixel-perfect UI designs with a focus on responsive web design.
- Skilled in **API development with Laravel 10** to ensure efficient and secure backend solutions.
- Focused on delivering user-friendly, scalable web applications that provide seamless integration between frontend and backend.

INTERNSHIP

WOLFOX , PHP Developer

September 2022 - November 2022

- Completed a 2-month internship focused on PHP and SQL, gaining hands-on experience in backend development and database management.
- Gained practical experience in building dynamic web applications and integrating data-driven functionalities.

EDUCATION

Master Of Computer Application

KIT IMER , kolhapur

Dec 2021 - Aug 2023
